

CONTRIBUTION PLEDGE

I support the Association of Caregiver & Nanny Agencies Canada with its lobbying efforts to amend the new administrative changes to the Live-in Caregiver Program, which came into effect April 1, 2010.

I understand that ACNA Canada's primary concerns are in the now mandatory employer paid airfare with no protection for the employer, and seeking clarification of the term "recruitment fees". ACNA Canada is of the opinion that the caregiver should be held responsible for the costs of his or her own airfare. Caregivers should be allowed to pay non-recruitment related fees for certain services.

I would like to contribute to the working of a solution in that regard.
